

December 2015

Availability

Electronic price list updated with release 182.E (U.S.) and 147.E (Canada), dated December 21, 2015.

Spec News is available on village.steelcase.com. Search AdStock and download the current release's Spec News.

View or download Steelcase Specification Guides at <http://www.steelcase.com/en/resources/design/spec-guides/pages/specguides.aspx>.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

► For a list of all trademarks, refer to the last page of this specification guide.
© 2015 Steelcase Inc.

For Canadian Pricing

Canadian factor can be found at steelcase.com/CADpricing.

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information.

Tip 3

Find cross reference by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the Understanding section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Surface Materials lists what material is used for each part of the product.

Actual Dimensions table lists the dimensions of the product.

Connections describes how the product is assembled or how it attaches to another product.

Wiring and Cabling details the cable-management and cable routing capabilities of the product.

Application Topics provides useful advice on how to apply the product.

3

Additional Resources

Integrated Technologies

products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product.

The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

If your device has a bar code reader App, scan this QR code for a direct link to the online digital publications. Utilizing this QR code allows you to search across multiple specification guides, share across social media, or print out pages. You can also access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality or warranty concerns or service parts questions.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

media:scape Tables

media:scape tables

support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures. They allow users to share information through integrated technologies displays and facilitate a seamless flow of information during meetings.

► Specifying, page 42

media:scape tables

are available in three table heights: 23"H lounge-height, 28½"H desk-height, and 38"H stool-height. Surfaces are 1⅜" thick with a wood core and are supported by a column structure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Lounge-height tables

are available in three shapes: round, D-shaped, and pear. The D-shaped and pear tables include a totem.

Desk-height and stool-height tables

are available in nine shapes: square, rectangle, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, offset, and TeamStudio (stool-height only). All are offered with an attached totem, except round.

Offset tables have a two-piece top which comes standard with two totems, one on each end of the table.

Totem is available in three finishes. Totems may be attached to all media:scape tables except round. The totem supports one flat screen monitor with an option to support two. An infill must be specified and is available in painted aluminum.

Surfaces are available in both laminate and veneer.

Monitors must be CEC compliant with an HDMI input. It is recommended that the monitor be commercial grade or equivalent.

One scaler is standard for a single monitor. Two scalers are standard for dual monitors. Additional scalers can also be ordered separately, to facilitate up to four displays.

Media well houses power receptacles, data ports, a power button, PUCKs, and has a hinged cover.

PUCK (*Personal User Control Key*) enables the seamless flow of information between team members. ► See page 38

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Profile surfaces have a 3 mm edge banding along all sides.

Product Details

Laminate surface

edges are plastic and finish selection is available.

► See *Recommended Surface Edge Finishes*, page 161, for recommendations.

Veneer surface edges are veneer and match the top surface.

Seismic anchor brackets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor. Brackets are ordered separately in a package of two (two packages should be ordered per table).
► See page 54.

To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108.

Steelcase Maintenance Agreement

media:scape tables

include a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

Maintenance agreement renewal options are available for one, two, and three year periods.

► Specifying, page 164

Power and Data

Power is included.

Wires can be housed in the column media well.

media:scape TeamStudio

media:scape

TeamStudio is designed for active project teams collaborating on video. The tables are offered in stool-height to optimize for video sight lines and for multiple work modes. media:scape TeamStudio facilitates the sharing of both digital and analog information, while amplifying project team collaboration for both sides of the video conference.

► Specifying, page 52

Two opposing trapezoid-shaped tables are both optimized for video conferencing sight lines, promoting active collaboration within the space.

Circulation space allows participants the ability to move freely throughout the space, providing them easy access to analog tools such as whiteboards and flipcharts.

Displays on both sides of the application allow for the appropriate placement of both content and video participants. TeamStudio can be specified with a single totem, dual totems, or no totems for wall-mounted displays.

Single switcher links the two tables to act as a single media:scape table. PUCKs from either table can be used to share to the media:scape displays.

Product Details

Extension cables for media:scape TeamStudio are provided and can be routed through the floor (raised floor or cored) or via an optional cable track.

CODEC case and camera ledge should be specified to accommodate video conferencing applications.

Steelcase Maintenance Agreement

media:scape TeamStudio includes a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

Maintenance agreement renewal options are available for one, two, and three year periods.

► Specifying, page 164

media:scape Table — Wiring and Cabling

Attached Display

Scaler insures consistent image resolution to the displays.

Media well stores PUCKs when not in use and provides power receptacles. Data ports can be added if desired.
▶ See page 23

The switcher connects to the PUCKs, and controls which user's laptop content is shown on the display(s). Up to four displays, either monitors or projectors, can be accommodated.

The switcher sends the signal to the scaler through the HDMI cable.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

For power management, the media:scape setting will automatically go into standby mode when media:scape is not in use. The system can be reactivated by simply connecting a device to one of the PUCKs.

PUCK (Personal User Control Key) plugs into the user's laptop and allows them to send their content to the display by touching an illuminated display number. PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

HDMI cable receives information from the switcher and sends that information to the scaler.
Note: When integrating with video conferencing, an additional HDMI cable and scaler is required.

CommScope black faceplates
M13C-003 (included)

Note: The faceplates can be removed
and replaced with other standard
faceplates. The faceplate opening size is
1.38"H. x 2.71"W.

media:scape - well

4. Replace covers.

Under the Hood

media:scape Table

6 power supply plugs are provided within the media well of every media:scape table.

media:scape switcher includes 8 input ports to connect to the PUCKs and 4 output ports for monitors or projectors.

Integrated pulley system allows PUCKs to be fully retracted into the media well to manage cables and stow PUCKs safely when not in use.

PUCK enables the user to seamlessly switch the information displayed on a laptop to a monitor or projector by touching an illuminated display number on the PUCK. PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Inputs 1-4 and inputs 5-8 support up to eight PUCKs that can be connected to the media:scape switcher. Although they look like HDMI cable inputs, plugging standard HDMI cables into these sockets can harm the switcher.

Switcher outputs are the output jacks to the monitors and projectors. The switcher can handle up to four output displays via HDMI cables.

A media:scape table provides two specialized audio/video inputs. For integration with video conferencing, cable television, document cameras, and other devices, please refer to switcher user manual.

A single monitor table with totem should be specified with a 40" to 42" diagonal screen dimension for optimal viewing. The inside dimension of the totem from above the table top to the underside of the totem is 28½"H, and the internal width between the two sides of the totem is 47½"W.

A 7' power cord exits the base of the column and can be plugged into the floor or wall.

For dual monitor solutions with a totem, a shroud is supplied to which 32" monitors can be attached.

A scaler is standard with each table. Additional scalers and HDMI cables should be specified for each additional monitor, projector, and/or CODEC.

media:scape hosts video conferencing solutions in two ways:

- 1. Using a webcam with a laptop** in combination with a collaborative software program.
- 2. Using a video conference system** that plugs into the media:scape switcher input number 9; allowing laptop information to be shared when collaborating between local and remote sites.

Note: An additional HDMI cable and scaler is needed to host a video conferencing system.

media:scape Digital Upgrade Packages

media:scape digital upgrade packages allow customers with the original media:scape analog technology components to upgrade their media:scape table to digital technology. The digital upgrade packages include everything necessary to upgrade a media:scape table.

There are two versions available:

1. Digital upgrade package standard – the standard version includes an 8x4 switcher with four, six, or eight PUCKs and single or dual displays.
2. Digital upgrade package lite – a smaller scale version of the upgrade that includes a 4x2 switcher with two or four PUCKs and single or dual displays.

The packages also include a one year maintenance agreement and a return and recycling program that allows customers to return their original analog technology components to Steelcase for a credit. See village.steelcase.com for more information.

► Specifying, page 61

Product Details

Digital upgrade package standard includes:

- 8x4 Digital switcher – 1
- Digital PUCKs – 4, 6, or 8
- Digital scaler and HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – 1 Year
- Return label and packaging (for analog technology return and recycling program)

Digital upgrade package lite includes:

- 4x2 Digital switcher – 1
- Digital PUCKs – 2 or 4
- Digital scaler and HDMI cable(s) – 1 or 2
- Steelcase maintenance agreement – 1 Year
- Return label and packaging (for analog technology return and recycling program)

Note: HDMI monitor extension cables are intended for use with attached totem applications. For wall mounted monitor applications, HDMI monitor extension cables will need to be specified separately.

Steelcase Maintenance Agreement

media:scape digital upgrade packages

include a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

Maintenance agreement renewal options are available for one, two, and three year periods.

Maximum monitor weight	150 lbs	50 lbs	55 lbs	55 lbs	55 lbs

Tip: To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108. media:scape mini, media:scape mobile, and FrameOne with media:scape monitor mounts have an integrated locking mechanism to accept a Kensington lock.

Wall-mounted shrouds

are available to support up to three 32", 42", 46", 55", or 65" monitors, (not included). Quad shrouds are available for 32" or 42" monitors. They are painted aluminum and available in platinum, arctic white gloss, near black, and midnight metallic.

Tip: Specify the seismic option if needed. This option is not available on shrouds with CODEC cases because these versions are already seismic compliant and additional parts are not required.

Monitor brackets are included and support most monitors.

Shroud-mounted

CODEC cases are available for dual and triple 42" and 46" monitors.

Tip: The 42" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 16½"D, and 2½"H CODEC. The 46" shroud-mounted CODEC case was designed to accommodate a maximum 28"W, 19½"D, and 2½"H CODEC.

Tip: Wall-mount hardware is not included. To complete an installation, consult with your project architect to determine the mounting specifications for your installation site. Consult with your local building code officials for specific code requirements applicable to your installation.

The bridge is an option on all single monitor shrouds, and dual 32", 42", and 46" shrouds. It tethers a detached table to the shroud and provides cable management. The bridge defaults to the finish selected for the shroud. The bridge is not attachable to the dual monitor shroud with CODEC (MTSWD32C).

Note: Bottom of shroud will be 5" above table top.

If a table is placed away from the wall, cables can be routed down the column, through the floor, and up the wall to the monitor. When coring the floor 2", conduit is recommended to easily fit the monitor extension cable HD15 connector.

Camera Ledges

Camera ledges are available to support video conferencing applications in either shroud-mounted or totem-mounted options.

Tip: Cameras are not included.

Shroud-mounted camera ledges can be mounted to all wall-mounted shrouds and the dual monitor totem shroud. They are available in platinum, arctic white gloss, near black, and midnight metallic. Shroud-mounted ledges include slot to accommodate camera mount.

Totem-mounted camera ledges can be mounted to any media:scape table with a totem and are available in platinum, arctic white gloss, and near black.

Tip: Sight lines will vary by camera and should be taken into consideration when specifying an application.

The CODEC case is available 2 1/2" thick or 5 1/2" thick to accommodate most CODECs. They are mounted to the bottom of the bridge on tables with totems, or to the shroud bridge option available on all single monitor shrouds, and 32", 42", and 46" dual monitor shrouds. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services. The CODEC case is available in platinum, arctic white gloss and near black.

Tip: The dual 42" and 46" shrouds and the triple 42" and 46" shrouds are available with a CODEC case stored behind the shroud. A bridge-mounted CODEC case would not be needed in this scenario.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

Tip: The 5 1/2" thick CODEC case was designed to accommodate a maximum 5" CODEC height, 16" depth, and 20" width.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering a CODEC case.

Tip: An additional scaler and HDMI cable are needed to connect to the CODEC.

5.5	6"	23"	21"

media:scape PUCKs

media:scape allows workers to collaborate with their devices by using new PUCKs that support a mix of digital and analog connections.

PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Each individual PUCK has a single connector and any combination of PUCKs can be specified on media:scape products.

► Specifying, pages 63-66

Product Details

VGA has been the standard analog output on most devices for the past decade. Many of today's enterprise laptops have both a VGA and a digital output.

HDMI is the common digital output on consumer devices. Most consumer laptops have HDMI outputs today.

DisplayPort is the common digital output on enterprise devices. Most enterprise laptops have DisplayPort outputs today.

mini DisplayPort is the common digital output on Apple™ MacBooks™.

To determine the appropriate mix of PUCKs, work closely with the customer's IT department.

When selecting mixed PUCKs, please use the images below to determine the location for each connector.

Use this configuration for media:scape tables with four PUCKs, mini, and mobile.

Use this configuration for media:scape tables with six PUCKs.

Use this configuration for media:scape offset tables.

Use this configuration for media:scape kiosk.

media:scape Virtual PUCK

Virtual PUCK allows easy and efficient wireless content sharing from laptops on two media:scape displays. Virtual PUCK maintains the simple “Open, Connect, and Share” user experience, like the original media:scape PUCK interface.

► Specifying, page 64

Users share content via a security-minded software application, complete with a simple and easy to use interface.

Content is shared on up to two displays.

Virtual PUCK receiver integrates directly with the media:scape digital switcher. It receives video content from the network connection, and shares the content to the switcher.

Note: Virtual PUCK can be integrated in applications with HDVC, but will only be able to send content to one display rather than two.

Virtual PUCK works seamlessly with physical PUCKs in any media:scape application.

Product Details

Virtual PUCK application, available for Windows or Mac laptops, allows users to wirelessly share content to one or two media:scape displays. Just like the “Open, Connect, and Share” experience of media:scape, users simply open the app, connect to the media:scape via a four-digit security code, and share content from anywhere in the room. Up to eight users can connect to a Virtual PUCK system at one time.

The Virtual PUCK app can be downloaded free of charge at www.steelcase.com.

The Virtual PUCK registry is a software application that runs on the Steelcase application server. It allows IT managers the ability to configure, monitor, and manage each Virtual PUCK on a customer's network. The Virtual PUCK registry is included with the purchase of the Steelcase Application Server.

The Steelcase application server is an enterprise class platform utilizing virtual server technology to deliver centralized management, reporting, and analytics for Steelcase technology products, including Virtual PUCK.

► Specifying, page 64

Steelcase application server installation is required prior to installing the Virtual PUCK registry. Additional information on the Steelcase application server can be found on page 65.

Note: Steelcase application server features the management of Virtual PUCK and other future Steelcase technology products. Only one instance is required to be installed on the customer's network. The single instance of Steelcase application server can manage all Virtual PUCK receivers on the customer's network.

Note: Although the Steelcase application server is available at no cost, it is important to place an order for a valid license. This license will ensure future access to Technical Support and software updates.

Note: The Steelcase application server is not hardware, but rather a virtual server (operating system and software package) that delivers a centralized management system of Steelcase technology products.

Steelcase Maintenance Agreement

media:scape Virtual PUCK includes a one year Steelcase maintenance agreement to provide an enhanced support system. The maintenance agreement covers:

- Software/firmware enhancements
- Expedited shipping for hardware replacements
- Prioritized technical support

Maintenance agreement renewal options

are available for one, two, and three year periods.

► Specifying, page 164

Virtual PUCK has been designed to be installed within media:scape table and media:scape mobile applications. It is not recommended to install the Virtual PUCK system within media:scape mini, FrameOne with media:scape, FlexFrame with media:scape, or Coalesse Exponents applications.

Wiring and Cabling

Virtual PUCK receiver and media:scape digital switcher require a connection to the customer's network.

HDMI cables connect the Virtual PUCK receiver to the media:scape digital switcher. Connection constraints: Virtual PUCK utilizes the switcher's auxiliary ports. Virtual PUCK can be used in combination with other integrated systems, such as: videoconferencing, digital signage, and AV control systems like those used in media:scape Learn Labs. Videoconferencing systems typically use two of the three available switcher auxiliary ports, so Virtual PUCK will only be able to send content to one display in those applications.

Mounting Options

media:scape tables host the Virtual PUCK receiver under the pyramid covers, in close proximity to the digital switcher.

media:scape mobile holds the Virtual PUCK receiver in the CODEC case.
Note: An HDVC kit is required.

media:scape kiosk houses the Virtual PUCK receiver in the boot cover, underneath the worksurface.
Note: The kiosk cable kit option is required when specifying media:scape Virtual PUCK for use with media:scape kiosk.

Stool-Height Tables

Tip: When integrating with an HD videoconferencing CODEC, order one additional scaler and an HDMI cable.

Tip: Steelcase maintenance agreement (1 year) is reflected in the base price of the product.

Tip: For each additional display, order one additional scaler and HDMI cable.

Note: In totem application with dual monitor shroud, two scalers are already included.

► See page 60

Tip: Monitors are not included. Monitors should be multi-sync, with a horizontal frequency range of 31-80 kHz, a vertical frequency of 55-80 kHz, and a detachable C13/C14 cord. For further information, go to steelcase.com and search for media:scape.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
► See page 1 for details.

► See page 1 for details.

Tip: Order these PUCKs to retrofit into existing tables. PUCKs with digital connections can only connect into the media:scape switcher. If your table was purchased before February 2012, a maximum of six PUCKs with digital connections can connect into the switcher. If more than six PUCKs are connected, the switcher will not send a video signal. Please contact LineOne if you have any additional questions at 1.888.STEELCASE.

media:scape Virtual PUCK

Available now as a limited release.
Please contact virtualpuck@steelcase.com for more information.

Tip: Steelcase maintenance agreement (1 year) is reflected in the base price of the product.

Tip: The Virtual PUCK is designed to integrate with the media:scape digital system.

Tip: When specifying Virtual PUCK with media:scape mobile, an HDVC kit is also required to house the Virtual PUCK receiver inside the CODEC case.

Tip: A single installation of the Steelcase application server is required prior to installing the Virtual PUCK registry application. Specification information can be found on page 65.

Steelcase Application Server

Available now as a limited release.
Please contact virtualpuck@steelcase.com for more information.

Steelcase Application Server

Tip: One of the features of the Steelcase application server is the management of Virtual PUCK and other future Steelcase products. Only one instance is required to be installed on the customer's network. The single instance of Steelcase application server can manage all the Virtual PUCK receivers on that network.

Tip: Although the Steelcase application server is available at no cost, an order must be placed for a valid license. This license will ensure future access to technical support and software updates.

media:scape kiosk

media:scape kiosk is tailored to meet the needs of video collaboration for the individual. It is optimized for one user, but can host two users. media:scape kiosk can support casual, quick, informative conversations in the open plan, or evaluative working sessions in a small enclave. kiosk enhances collaboration, bringing together local and global teams to maximize organizational and individual potential.

► Specifying, page 76

media:scape kiosk is completely self-contained, eliminating the need to route cables through walls and floors.

Base is available in three finishes and includes the column. A storage compartment is included to house power cord when being transported.

Camera placement creates optimal sight lines and framing for users.

Media well offers two power outlets and two PUCKs.

Foot ring on standing-height version provides comfort while standing.

Product Details

kiosk is available in two versions – stool-height or desk-height.

media:scape kiosk includes two PUCKs for content sharing while collaborating on video.

Steelcase Maintenance Agreement

media:scape kiosk includes a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

Maintenance agreement renewal options are available for one, two, and three year periods.

► Specifying, page 164

Wiring and Cabling

media:scape kiosk requires power and two network connections (for both the digital switcher and CODEC).

Mounting Options

kiosk can be specified with mounting hardware for the Cisco EX90 or a 32" display.

media:scape mini and mobile

media:scape mini can be placed on top of any surface to transform spaces into collaborative work environments, extending the media:scape experience to smaller, existing settings.

► Specifying, page 87

media:scape mini

comes with four PUCKs available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

► For media:scape PUCKs Understanding, see page 38

media:scape mini sets on the worksurfaces and does not require any attachments. For added security, mini can be bolted or locked to the worksurface.

Media well houses four power receptacles, a power button, PUCKs, and has a hinged cover.

Weight of media:scape mini is 90 lbs with the 40" shroud, and 94 lbs with the 42" shroud (monitor not included).

Shroud comes standard, and is easy to remove to provide access to technologies components.

Monitor is not included. media:scape mini has been optimized for either 40" or 42" LED monitors. For monitor selection criteria and recommendations, go to: www.steelcase.com/mediascape.

When using a 40" or 42" monitor that is not recommended by Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used with mini. Monitors must be CEC compliant with an HDMI input. It is recommended that the monitor be commercial grade or equivalent.

The power cord on mini extends 7' out the back of the base.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort, or Mini DisplayPort.

► For media:scape PUCKs Understanding, see page 38

media:scape mobile

allows users to apply media:scape in a diverse range of settings — from hospitality to education, business, and healthcare — wherever collaboration might occur.

► Specifying, page 88

media:scape mobile

can be wheeled up to any worksurface and should be placed with media well floating above the worksurface.

PUCKs (Personal User Control Key) enable the seamless flow of information between team members. PUCKs may be specified as VGA, HDMI, DisplayPort, or Mini DisplayPort.

► For media:scape PUCKs Understanding, see page 38

Product Details

Built-in security holes

allow monitors in media:scape mini and mobile to be secured using a Kensington lock.

Steelcase Maintenance Agreement

media:scape mini and mobile include a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

Maintenance agreement renewal options are available for one, two, and three year periods.

► Specifying, page 164

Power and Data

Power is included.

Surface Materials

Base

- Paint

Shroud, bridge, and media well

- Paint to match base

media:scape mini
and mobile

media:scape mobile with HDVC

media:scape mobile can host video conferencing solutions. The HDVC kit includes a CODEC case, top-mount and under-mount camera ledges, a HDMI cable, and a hardware package. Monitor and camera are not included.

► Specifying, page 88

The CODEC case is designed for simplified installation of HDVC video conferencing with media:scape mobile. The location of the CODEC case allows easy access to all necessary connections when the shroud is removed.

The CODEC case is 5¾" thick to accommodate most CODECs. The perforated cover lets heat dissipate from the CODEC and allows access to hardware for services.

Tip: All CODECs may not fit. Check the dimensions of the CODEC before ordering CODEC case.

Tip: The HDVC kit, an additional scaler, and an HDMI cable are needed when integrating with an HD videoconferencing CODEC.

Actual Dimensions

CODEC Case	Outer Dimensions	Inner Dimensions
Depth	5¾"	5⅛"
Width	17"	14⅜"
Height	16"	12⅝"

Tip: Sight lines will vary based on camera, mounting position, and distance from participants.

Product Details

Top-mount camera ledge supports most industry standard HDVC cameras. Depth is 7" and width is 11 1/8".

Under-mount camera ledge accommodates most industry standard HDVC cameras. Depth is 8" and width is 11 1/8".

Flip-up door in base provides easy access to a power and data cables storage compartment.

A tether buckle is included to secure the CODEC. A Kensington lock is not included but recommended for security.

ScapeSeries table

supplies power to users and invites others to walk up and collaborate in multiple postures. It combines cornerless curves with straight sides that may dock alongside walls more effectively than typical round café tables, resulting in a more thoughtful relationship between workspaces, users, and the interior architecture.

► Specifying, page 94

Shroud comes standard with the table. It clamps to the underside of the work surface and conceals the power and data strip.

Power and data strip

includes three simplex receptacles and space for customer supplied voice/data outlets. It is not included with the table and needs to be specified separately.

► See page 95

Surfaces are available in both laminate and veneer.

Profile surfaces have a 3 mm edge banding along all sides.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

media:scape Lounge

media:scape lounge

creates collaborative work settings designed to support small teams of four to six people.

► Specifying, page 108

media:scape lounge

offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM, COL, or COV. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Totem canopy is optional on all tables with totems. It replaces the infill and is available in painted aluminum.

Lounge fabric is available in select Steelcase and DesignTex fabrics.

Glides are available in several finishes.

Lounge canopy

is optional on all corner and straight lounge pieces. It transforms the degree of privacy providing an intimate and protected setting. It includes a painted aluminum structure, fabric panel, and a laminate or veneer back panel.

► See *Thought Starters*, page 7.

Ledge is optional on all corner and straight lounge pieces. It acts as a surface and provides additional space for collaboration. It includes a painted aluminum structure, laminate or veneer back panel, and an optional laminate or veneer topper.

► See *Thought Starters*, page 7.

Tip: If specifying seating behind the ledge, maximum seat height should be 31" to provide appropriate leg clearance.

Upholstery Orientations

Same - The entire lounge is one fabric.

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

Product Details

Straight lounge has a straight back which tapers to the front of the seat.

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

Left corner lounge is left-handed in a seated position.

Right corner lounge is right-handed in a seated position.

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

- Steelcase or Designtex fabric
- Fabric with soil-retardant treatment (option)
- Leather
- ▶ See *Surface Materials*, page 154.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

- ▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pretreated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying RoomWizard II

Product Details

RoomWizard II Room Scheduling System	126
--------------------------------------	-----

Specifying

RoomWizard II Room Scheduling System	129
RoomWizard II Accessories	130

RoomWizard II Room Scheduling System

RoomWizard II is a web-based room scheduling system with touchscreen display.

Reserve a room from any networked computer, smart phone, or RoomWizard II device.

RoomWizard II can stand alone or synchronize with systems like Microsoft Exchange, Lotus Domino servers, Google Apps, and several other third party software systems.

Display of the room's schedule, hostname, meeting purpose, meeting times, room details, and timeline are shown.

Touchscreen allows user to claim a room for an impromptu meeting, adjust meeting time, or end a meeting early.

Status lights are bright red and green which signal a room's availability from a distance.

Product Details

RoomWizard II comes with everything needed to operate in classic mode, as a stand-alone system with standard firmware which is included. To operate in synchronized mode, the synchronization drivers must be purchased separately.
Tip: Firmware may be automatically updated via the internet or micro USB drive.

RoomWizard II screen can be wiped clean by using a microfiber cloth.

Built-in security holes allow RoomWizard II to be secured using a Kensington lock.

Analytics console records room occupancy and reservation patterns, then generates reports to provide insight into space utilization.

Administrative console manages, configures, and monitors all RoomWizards from a single interface. Both consoles are available for free download on the RoomWizard II support page at www.steelcase.com.

Actual Dimensions

Universal Mount		
Width	8 1/8"	7 1/2"
Height	5 1/8"	2"
Depth	2 1/4"	1"
Installation depth with mounting bracket	2 1/4"	
Diagonal screen size	7"	
Weight	1 1/4 lb	

Wiring & Cabling

RoomWizard II connects to a network and is powered using Power over Ethernet (PoE). PoE cables run from the PoE switch typically located in the data closet. Industry standards set cable lengths at 100m. Contact your IT department to determine the PoE switch locations.

Mounting Options

The standard mount comes with each RoomWizard II and allows it to mount directly to hard surfaces.

The universal mount is an option and is used to mount to architectural mullions. It can also work for glass wall applications.

The universal mount with furniture hardware kit is an option and is used to mount to FrameOne, Post and Beam, and other furniture products.

Mounting RoomWizard II to media:scape does not require a universal mount, so ordering the furniture mount hardware kit separately is recommended for that application.

► See page 131

The direct-to-glass mount is an option and includes a vanity plate to visually conceal the hardware. It allows the RoomWizard II to adhere to glass surfaces.

Recommended mounting height is 54" from floor to top of unit.

The junction box plate mounts come in packs of five and are used to mount RoomWizard II to junction box plates.

The V.I.A. mounting bracket is an option that allows RoomWizard to be mounted directly onto Steelcase V.I.A. captured glass frames. This option will require the PoE cable to be run from the floor to the RoomWizard.

For the PoE cable to be run from the RoomWizard to the floor, it can be routed through the post in the V.I.A. wall. Cable diameters up to standard Cat 6 are supported. The maximum diameter for an ethernet cable is 1/4" thick.

When mounting the RoomWizard to V.I.A. provide enough clearance for V.I.A. sliding doors. When positioned on double glazed assemblies, the RoomWizard should be mounted to Side A of the glass frame. RoomWizard can be mounted to solid V.I.A. skins using the standard mount.

For single glazed V.I.A. wall installations, the V.I.A. mount can only be used if the glass is flush with the corridor side of the wall. Otherwise, the standard RoomWizard glass mount is recommended.

► Refer to the *V.I.A. Specification Guide* for further application details.

Specifications

Specifications

- Touchscreen: capacitive touchscreen
- Size: 7" diagonal
- Aspect ratio: 16:9
- Resolution: 800 x 430 WVGA
- Color depth: 16M colors
- Memory: 4Gb

Ethernet

- 10BaseT/100BaseTX, DHCP, IEEE 802.3U & 802.3af compliant

Power Requirements

- Power over Ethernet: 802.3af & 802.3at compliant

Environmental

RoomWizard II Support:

- Analytics Console
- Administrative Console

The Google Apps connector

connects a customer's RoomWizard to Google calendars.

Conference rooms outfitted with RoomWizard can be reserved through Google calendar or the RoomWizard itself. For a flat annual cost, customers can connect unlimited RoomWizards to the service. Customers can order the software at www.rwcloudconnector.com or through a dealer.

Available for immediate download

at store.steelcase.com:

- Microsoft Exchange and Microsoft Exchange Cloud Synchronization Packages
- Lotus Domino Synchronization Package

Microsoft Exchange Enterprise Synchronization Package

enables customers to connect their RoomWizards to Microsoft Exchange. It is designed for organizations concerned about the capacity of their Exchange system. This version of the connector operates with a push architecture which limits the stress the RoomWizard device places on the Exchange system.

RoomWizard II Room Scheduling System

RoomWizard II Room
Scheduling System

Tip: Plan for cable routing prior to installation.

Tip: Both universal mounting bracket and direct-to-glass mounting bracket work for glass wall applications.

► See understanding section for more information.

Tip: When using RoomWizard in conjunction with V.I.A. captured glass frames, use the V.I.A. mounting bracket.

Note: Remember to provide enough clearance for V.I.A. sliding doors.

ēno Classic, ēno Click, and ēno Flex Interactive Whiteboards

ēno Classic, ēno Click, and ēno Flex interactive whiteboards can be used as a conventional whiteboard with any traditional dry eraser marker, or as an interactive whiteboard with the use of a projector and an ēno stylus.

The ēno Classic interactive whiteboard installs like any conventional whiteboard. No power or cables are required.

The ēno Click interactive whiteboard uses magnetic mounting hardware and mounts instantly over an existing ceramic-steel chalkboard, whiteboard, or any other steel surface. No power or cables are required.

ēno Classic and Click interactive whiteboards are available in three different dot patterns: A, B, and C. This enables up to three boards to be independently calibrated in the same room and to operate properly.

Interactive application: ēno can be used as an interactive whiteboard when used with the ēno stylus in conjunction with any Windows or Apple computer (not included) and any projector (not included with ēno interactive whiteboards, but can be ordered separately). For best experience, ultra short-throw projectors are recommended.

Actual Dimensions — ēno Classic and ēno Click

Dimensions include whiteboard frame	Overall Depth	Overall Height	Overall Width
ENO2610	1"	48"	63"
ENO2810	1"	48"	84"
ENOCCLICK2650	1 1/4"	43"	63"
ENOCCLICK2850	1 1/4"	43"	84"

ēno Flex integrates multiple ceramicsteel dry erase panels and ēno interactive whiteboards into the same surface. It installs like any conventional whiteboard. No power or cables are required.

All ēno Flex configurations include a full-length integrated marker tray, as well as a full-length tack rail with a flag holder, two map clips, and two map rail hooks.

ēno Flex 100, ēno Flex 200, and ēno Flex 686 solutions are only available in the A dot pattern.

The ēno Flex 280 solution includes both an A dot pattern board and a B dot pattern board.

Actual Dimensions — ēno Flex

Dimensions do not include 4" deep integrated marker tray

Product Details

ēno interactive whiteboards feature a pattern invisible to the naked eye. The pattern consists of numerous intelligent small black dots that can be read by the ēno stylus. The pattern indicates the exact positions of the ēno stylus.

Any Bluetooth® enabled computer (Apple or Windows-based) with the ēno App installed can be used in conjunction with ēno to enable interactive whiteboard capability. Any projector can be used to project images from the computer to the ēno whiteboard.

The **ēno stylus** works with the ēno whiteboard to enable interactive capability with a computer. For example, when a computer based presentation is projected onto the ēno whiteboard, the stylus can be used to guide the presentation or interact with a computer program, similar to keyboard or mouse commands.

Each ēno Classic and ēno Click interactive whiteboard comes complete with:

- one ēno whiteboard with one of three dot patterns. Every ēno whiteboard features the e³ ceramicsteel writing surface
- one Bluetooth enabled stylus with one AAA battery
- two replacement stylus tips
- one ēno receiver for Windows or Macintosh (USB interface)
- the ēno App
- one USB extender for the ēno receiver
- one magnetic icon strip

Each ēno Flex interactive whiteboard comes complete with:

- one ēno whiteboard, which features e³ ceramicsteel writing surface
- one Bluetooth enabled stylus with one AAA battery
- two replacement stylus tips
- one ēno receiver for Windows or Macintosh (USB interface)
- one Bluetooth
- One USB extender for the ēno receiver
- One magnetic icon strip
- Full-length integrated marker tray
- Full-length tack rail with flag holder
- Two map clips and two map rail hooks

Computer projector is not included.

RM EasiTeach Next Generation Software is an available option for all ēno interactive whiteboards. It is an educational software which includes a five-user license.

Installation

ēno interactive performance requires the installation of the ēno App on the computer and the ēno receiver included with ēno.

The ēno Classic and ēno Flex whiteboards install like any conventional whiteboard. There are no power requirements and therefore no wires. Because it transmits to the computer via Bluetooth there are no communication cable requirements.

The ēno Click interactive whiteboard comes with magnetic mounting hardware and mounts instantly over any ceramic-steel or steel surface. Because ēno transmits to the computer via Bluetooth, there are no communication cable requirements.

Application Topics

ēno Classic and ēno Click interactive whiteboards are available with A, B, and C dot patterns which allow up to three boards to be independently calibrated in the same room and operate properly. In a multiple interactive whiteboard application, no two whiteboard dot patterns should be the same.

ENOFLEX100, ENOFLEX200, and ENOFLEX686 interactive whiteboards are only available in A dot pattern.

Environmental Certifications

ēno Classic and ēno Click

- MBDC Cradle to Cradle Silver
- SCS Indoor Advantage
- RoHS

ēno Flex

- SCS Indoor Advantage
- RoHS
- Qualifies for LEED points

Warranty

For warranty details, go to www.steelcase.com.

ēno projector kit includes a universal double-stud projector mount kit and ultra short throw projector.

ēno projector kit is ordered separately.

Product Details

Universal projector mount kit comes complete with:

- Double-stud mounting bracket that installs on wood studs, steel studs, and concrete
- 40" boom arm that provides cable storage
- Projector mounting hardware

WXGA ultra short-throw projectors comes complete with:

- DLP with Brilliant Color technologies
- Native resolution: WXGA (1280 x 800)
- Aspect ratio: 16:10 Native, 16:9, 4:3
- Brightness: 3000 Lumens (typical); 2450 Lumens (eco mode)
- Lamp life: 5000/8000 hrs.
- 6-segment color wheel (RGBCWY)
- Contrast ratio: 2300:1
- Two 10 watt built-in speakers

Warranty

For warranty details, go to www.steelcase.com.

ēno Play

ēno Play integrates sound with the world's most durable interactive white-board to tune in every type of learner, from auditory to kinesthetic to visual.

ēno Play consists of an amplifier, driver pack, two exciters, audio input cable, power supply with adapters, and hardware mounting extender brackets for an ēno board. When using ēno Play, make sure the ēno board is located near a power receptacle to power the amplifier.

Product Details

Amplifier is standard with two 20 watt output channels and two input jacks, and is electronically protected against reverse and over voltage power input supply.

Amplifier output power is 24VDC; 1.88A, and input power is 100-240VAC; 50/60Hz.

Driver pack is standard with two transducers and maximum power of 15 watts rms. Driver pack IEC 268-5 maximum power is 30 watts rms.

Audio input cable is a 3.5 mm, male-to-male stereo cable. The standard length is 25'. The following cables are available as service parts: 25', 50', 75' (male-to-male) or 10' (male-to-female).

ēno Play has an operating temperature of 41°F to 95°F and an operating humidity of 10% to 90% non-condensing. ēno Play has a storage temperature of -5°F to 140°F and a storage humidity of 5% to 95% non-condensing.

Environmental Certifications

- FCC
- CE
- RoHS
- WEEE

Understanding and Specifying Steelcase Certified Refurbished Products

Product Details

Steelcase Certified Refurbished Products	150
--	-----

Specifying

Steelcase Certified Refurbished RoomWizard II Room Scheduling System	151
--	-----

Steelcase Certified Refurbished Products

Steelcase Certified Refurbished Products are pre-owned Steelcase products that undergo Steelcase's stringent refurbishment process prior to being offered for sale.

They are in 100% working condition and sold as refurbished product at a lower price. As these refurbished products have been unpacked and manipulated, they might exhibit some minor cosmetic imperfections, such as scratches, marks, or discolorations.

Each Steelcase Certified Refurbished Product is:

- Fully tested under the same requirements as a new unit.
- Put through a thorough cleaning process and inspection.
- Re-flashed with new firmware.
Note: Firmware version may not be the most current by the time product is received. New firmware upgrade files are posted at Steelcase.com and can be upgraded post-installation.
- Repackaged (including appropriate manuals, cables, new boxes, etc.)
- Given a new refurbished style number and serial number.
- Placed into a Final QA inspection prior to being added to sellable refurbished stock.

Refurbishment procedures follow the same basic technical guidelines as Steelcase's Finished Goods testing procedures.

Warranty

Each Steelcase Certified Refurbished product includes a 1 year warranty.

Availability

Refurbished supply is very limited. It is recommended to check with a Technology Sales Consultant or SFT representative to see if an item is available for sale.

Steelcase Certified Refurbished RoomWizard II Room Scheduling System

Steelcase Certified Refurbished
RoomWizard II Room
Scheduling System

Tip: Plan for cable routing prior to installation.

Tip: Both universal mounting bracket and direct-to-glass mounting bracket work for glass wall applications.
▶ Page 127

Tip: When using RoomWizard in conjunction with V.I.A. captured glass frames, use the V.I.A. mounting bracket.

Note: Remember to provide enough clearance for V.I.A. sliding doors.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see steelcase.com/surfacematerials.

Surface Materials Binders

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

2615 Marbled Cherry

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$67 U.S. per worksurface or top, plus the cost of the laminate.

When processing orders for Open Line laminate

on c:scape and media:scape, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Note: Open Line laminate (OLL) is not available on media:scape lounge ledges and canopies.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Surface Materials Reference Manual*.

Wood

Applies to:

- media:scape tables
- ScapeSeries tables
- media:scape lounge ledges and canopies

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Flat-cut open-pore finish choices

- 3062 FC/OP Graphite Walnut
- 3402 FC/OP Clear Cherry (Aged)
- 3412 FC/OP Natural Cherry **E**
- 3422 FC/OP Medium Cherry
- 3522 FC/OP Clear Maple*
- 3572 FC/OP Amber on Maple **E**
- 3592 FC/OP Blonde on Maple
- 3702 FC/OP Clear Walnut
- 3712 FC/OP Natural Walnut
- 3722 FC/OP Dark Mahogany on Walnut
- 3752 FC/OP Medium Walnut
- 3762 FC/OP Dark Walnut
- 3772 FC/OP Medium Mahogany on Walnut

Quarter-cut open-pore finish choices

- 3042 QC/OP Ash*
- 3222 QC/OP Clear Maple*
- 3272 QC/OP Amber on Maple **E**
- 3292 QC/OP Blonde on Maple
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Rift-cut open-pore finish choices

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak **E**
- 3692 RC/OP Espresso Oak

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood desks or top only.

Flat-cut full-fill finish choices

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry **E**
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple*
- 3544 FC/FF Blonde on Maple
- 3574 FC/FF Amber on Maple **E**
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut
- 3764 FC/FF Dark Walnut
- 3774 FC/FF Medium Mahogany on Walnut

Quarter-cut full-fill finish choices

- 3224 QC/FF Clear Maple*
- 3274 QC/FF Amber on Maple **E**
- 3294 QC/FF Blonde on Maple
- 3304 QC/FF Clear Walnut
- 3314 QC/FF Natural Walnut
- 3324 QC/FF Dark Mahogany on Walnut
- 3354 QC/FF Medium Walnut
- 3364 QC/FF Dark Walnut
- 3374 QC/FF Medium Mahogany on Walnut
- 3384 QC/FF Graphite Walnut

Rift-cut full-fill finish choices

- 3604 RC/FF Desert Oak
- 3614 RC/FF Warm Oak **E**
- 3694 RC/FF Espresso Oak

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-001370 for 3222 and 3224.*

Steelcase Surfaces

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Lead-times will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices

Wood Group 2

- 3842 QC/OP Figured Makore

Note: Full-fill finish is not available on Premium veneers as a standard. To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesce standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

*These solid color and woodgrain edge colors are a polyolefin blend, PVC-free material for 3 mm and 1 mm edge banding.

Note: Light color plastic edges are susceptible to degradation due to normal wear and tear. Staining (e.g., ball point pen or clothing dyes such as blue jeans) and dirt effects are more pronounced in light colors and are not considered defects.

Maintenance Agreement Renewals

About Maintenance Agreement Renewals

Steelcase maintenance agreement renewals provide an extension of our enhanced support system that features software/firmware enhancements, expedited shipping for hardware replacements, and prioritized technical support.

Renewal Lengths and Bundling Option

Maintenance agreement renewals are available for 1, 2, and 3 year terms.

Customers with multiple maintenance agreements will be able to bundle some or all of their applicable Steelcase technology products into a single maintenance agreement.

How to Order

Maintenance agreement renewals follow a special ordering process that requires a customer specific quote generated by Steelcase. Please contact MAAs@steelcase.com for complete renewal process information or with any questions.

Tip: When selecting the 2 year renewal option, the list price is 15% less per year compared to the base price. When selecting the 3 year renewal option, the list price is 30% less per year compared to the base price.
